AMONG THE COLLEGES.

AMHERST

Amherst, Mass., Sept. 20 .- Amherst College open its fall term last Thursday with a freshman class of 120 members and a total enrolment of about 450, the imber as last year. There are few changes in the faculty lists. Professor J. R. S. Sterrett will be absent during the year to fill a professorship in the taken by Professor H. M. Twier, of Smith College the will conduct the senter and junter classes in Greek. Professor Todd will not resem from the expedition to Japan until October, and his rse in astronomy will be given in the winter term, instead of the fall. Dr. P. C. Phillips takes the place Dr. H. H. Seelye as assistant in the gymnasium, and will devote his entire time to the work, relieving Hitchcock of all the class dills. Professor Wood has withdrawn his resignation as registrar, and will continue to fill that place this year, assisted by C. A. Fay, of Portland, Ore. F. B. Loomis, '96, has been appointed assistant in biology, and E. S. Newton in chemical laboratory.

In the summer the college-church was repaired and painted. This made necessary the cutting down of class ivies which covered its walls. The roots were unharmed, however, and it is expected that in a years the vines will have grown again. lege Hall has been repaired on the exterior, and new have been provided for the college Young Men's Christian Association in Williston Hall.

The usual annual reception to freshmen, upper class n and members of the faculty was given by Prest-

The usual annual reception to freshmen, upper class men and members of the-faculty was given by President and Mrs. Gazes at their home Friday evening and was largely attended.

About twenty-five brandidates for the football team have been on the field every day this week, under Captain Tyler. Five members of last year's team have falled to return to college, the most serious loss being J. S. Johnston at fullback. The freshmen class brings in considerable good material, several excellent preparatory school players being among the number. George A. Gray, of Harvard, last year's coach, has been secured for this season, and Lewis, the famous Amberst and Harvard centre, will also probably be here for a short time.

The schedule of games as made by Manager Billings has been changed by the cancelling of the two games with the Agricultural College by the latter, and October 3 ami remain open dates. The revised schedule is as follows; September 30, Yale, at New-Haven: October 10, Brown, at Providence, October 14, Tufts, at College Hill: October 11, Wesleyan, at Middleton: October 21, Pennsylvania, at Philadelphia, October 34, Worcester Technology, at Amherst, October 35, Trinity, at Amherst, November 14, Dartmouch, at Amherst. For this last championship game the management will make larger preparations than ever before. Grandstands will be erected on each side of the field, seating 1,000 people. Candidates for the athetic team were called out Saturday afternoon to go into training for the fail meet, which will probably be held October 17. The prospects are good for a hotly contested meet, as the freshman class brings in a number of good men. Their athetes will especially strengthen the contests in which Amherst has been weak before. A new contest, a relay race cheween class teams, will be added to the programme for the day.

The College Co-operative Society, which for years has been h

UNIVERSITY OF VIRGINIA.

Charlottesville, Va., Sept. 20.-The university formally opened its doors to students for the seventy-third session on September 15. The attendance for this seson is about equal to that of last-between 500 and 600 students-which is considered encouraging by the professors, taking into account the chaotic and disandition of the university just at present buildings-the Rouss Physical Laboratory, the chanical Laboratory and the central building of the group, the Academical Building, which is to serve as public hall, as well as do duty for the lecture-rooms in the academical department—have not been finished, ugh the rotunda will be ready for use in a month or two. The new buildings will be completed in about eight months.

Lectures are being held in the literary hall, as at last session after therfire, and as soon as the rotunda

Page, a graduate of Leipsic, recently appointed, as Page, a graduate of Ledpsic, recently appointed, as his assistant. Professor Harrison has had added to his other duties as professor of the romance languages the chair of the English language, recently vacated by Professor Garnett, The classes in constitutional and international law and evidence and equity, in the law department, have been alloted to Professors Life and Minor, on the resignation of Professor Gilmore, who has had them of late years. Dr. Harringer has been elected chairman of the faculty, vice Prefessor Thornton, resigned, and with this additional duty still continues his work in the medical department.

quires three years.

The Board of Visitors has decided not to give any Christmas holiday for the present session on account of its supposed detrimental influence upon the work of the students.

of the students.

"Mike" Bergen, an ex-Princeton player, has been secured as trainer for the football team this season, and has already done effective work upon the twenty-five applicants who have come out thus far. Captain Lea, of the Princeton team of 'So, is here, and is working on the line. He will stay here until he is needed at Princeton. Altogether the prespects for the team are good.

RUTGERS.

New-Brunswick, N. J., Sept. 20.-Rutgers College reopened for the year on Wednesday morning with an entrance class of fifty-two.

The annual "cane rush" between the sophomor and freshman classes took place at 11.30 o'clock on Friday night. The freshmen were the winners, with twenty-five hands on the cane. The sophomores had

William Shield Myers, who was an instructor in chemistry, has been made associate professor in that

department All four of the classes have already held their class

All four of the classes have already held their class elections. The junior officers are: President, Elliott R. Van Cleef; vice-president, L. M. Smith; secretary, E. G. U. Meury; treasurer, William Clark. Temporary sophemore officers are: President, W. Holmes; vice-president, D. Weidner; secretary, C. Garretson; treasurer, V. M. Irick; historian, N. Marker. The freshmen have elected the following officers to serve for the first term: President, W. S. Purdee; secretary, F. Eckerson; treasurer, N. Rapalye.

The senior class and class-day officers are as follows: President, John N. Carpender, jr. New-Brunswick; vice-president, H. E. Reid, Smithburg; secretary, J. E. Ashmead, Pleasantville; treasurer, J. S. Verga, Camden; historian, Andrew J. Meyer, Albany; orgator, J. Scudder, New-Brunswick; poet, A. W. Hageman, Belleville; class historian, A. Erickston, New-Brunswick; memorial, Samuel L. Harding, Bridgeton; prophet, Clifford P. Case, New-Brunswick; presenter of mementos, Ralph B. Corbin, New-Brunswick; address to undergraduates, Hugh Haddo, jr. Newark, ity orator, G. E. Heath, New-Brunswick; ivy orator, G. E. Heath, New-Brunswick; darless to president, M. Mills, Morristown, tree orator, C. Hoopes, New-Brunswick; master orator, A. J. Waiters, Tradesville, Penn.

Dr. Adams, who has been travelling in Greece and Italy, has returned and assumed his duties as instructor in physical training and director of the gymnasium.

College Hill, Mass., Sept. 20.-College opened last Thursday under favorable conditions. The entering

class is large, having about 175 students Charles St. Clair Wade has been appointed assistant professor in the Greek department to succeed Dr. Graves, who resigned last spring to accept the presidency of the University of Wyoming. Samuel C. Earle, a graduate of Harvard, has been appointed to the instructorship formerly held by Mr. Wade.

The hard times of the last few years have made it necessary for the college to retrench. The deficit this year threatened to be so large that the trustees decided to drop Professor Curtis, of the Hebrew department. This backward step is not pleasing to the friends of Tufts, so an earnest effort is being made to endow the professorship and so retain the services of such an earnest scholar as Professor Curtis has shown himself to be.

The Reva B. F. Eaton, of Worcester, has been engaged as the financial agent of the college.

The Medical School has moved its quarters to the commodious building formerly occupied by the Chauncy Hall School in Copley Square. It will open September 30. hard times of the last few years have made

BOSTON UNIVERSITY.

Boston, Sept. 20 -On Thursday, September 17, the College of Liberal Arts opened with an entering class of about 120, fifty of whom are men. Thirteen rooms have been added to the quarters of this department by the fitting up of the old law school building. Miss Melvina Bennett has been elected to the Snow professorship in oratory, filling the place left vacant by Professor E. N. Kirby. Bennett is an alumna of the school and served last year as instructor in this department.

The most notable changes in the curriculum are in the department of English literature. Professor Frank h. Butler announces new courses in "Lyric Poetry of the Elizabethan Age," in "Burke," "De

Poetry of the Elizabethan Age," in "Burke," De Quincey" and "Carlyle," and a lecture course on "The Theory and Methodology of Literary Study." There is a larger class than for several years in the School of Theology. Already the rooms in the building are all taken. It is a noticeable fact that a larger percentage of this year's students than usual are from the New-England States.

The college library has been removed from the second floor of the old building to the quarters of the law library on the ground floor of the old law school building. Professor Lindsay's department of the Aryan languages, together with the Philological Association Library, is to occupy the second story of the old law school building. The title of "Convocation Hall," which has been given to the yearly meeting place of the University Convocation, is to be taken from room 25 on the fourth floor

and conferred upon the old law school lecture hall on the ground floor. To meet the needs of the enlarged library accommodations, it has been voted to engage a permanent assistant librarian to do the work of the department.

Dean Huntington announces that registrations indicate a large entering class, probably in the neighborhood of 100. Three promotions in the ranks of the staff take effect this fall, Assistant Professors Taylor, Warren and Baldwin coming into the full professorship in Greek, Philosophy and Social Science respectively.

CORNELL.

Ithaca, N. Y., Sept. 20.-The fall entrance ex aminations began on Tuesday, Monday, Tuesday and Wednesday of this week will be registration days, and instruction begins on Thursday, Septem-

ber 24. in September the members of the Agricultura Experiment station are to conduct a number of horticultural schools in various countles in Central and Western New-York. These scho the direction of Professor L. H. Bailey, George T. Powell, of Ghent, N. Y., and E. G. Lode man. This university extension work has proved valuable to farmers in former years that the last Legislature made provision for a larger num-

ber of schools than has heretofore been possible. The growth of the university library has made necessary the addition of two catalogue cases to those already in the reading-room. A catalogue of the Dante collection, recently presented to the university by Professor Willard Fiske, of Florence

Italy, is soon to be published. The State Veterinary College, which will open this fall, is thought to be the best equipped institution of the kind in America. The seven buildings have been completed and are now being furnished. They are built of dull yellowish buff compressed The main building is 142 by 42 feet in size and three stories high. The exterior is distin guished by handsome terra-cotta ornamentation. the dean and the professors of anatomy and physiology. The second floor contains the upper part the museum, a lecture-room, reading-room. library and rooms for professors. is devoted to laboratories of histology, pathology and bacteriology, and the necessary subsidiary of fices. The building is thoroughly perfected against fire by means of lines of hose. Connected with the main building, and forming its east wing, is a structure 90 by 40 feet, one story high, which contains the laboratories, lecture-room and other ofimpermeable granolithic cement, the walls are lined with enamelled white brick and the cellings are covered with sheet steel. A second extension from the main building is the boiler and enginebuilding, is furnished with rooms for forge, instruments and water heater. The general patients' ward is 100 by 31 feet, and is furnished with box and other stalls, heating apparatus, other necessary appliances. The isolation ward, 54 by 15 feet, has its stalls absolutely separated from one another, and each opening by its own The other buildings are the mortuary building and a building 51 by 20 feet, which will be devoted to clinical uses. The college will offer for the present a three years' course, although it is expected that eventually the course will be lengthed to four years. Since the college is a State institution, it will depend for its support entirely on appropriations made by the State Legislature. The Board of Trustees of the college is a separate and distinct body from the university Board of Trus-

distinct body from the university Board of Trustees.

Football practice began on Monday, and from present appearances a good line is assured. At present there is a scarcity of extremely heavy men, but with later accessions this matter is practically certain to be remedied, to a large extent at least. Sweetland, Fitch and Fennell are at work, and other old players who will return are Lyle, Starbuck, McKeever, Richie, Taussig and Freeborn. There will be little difficulty in making a strong line from centre to tackle. The difficulty will probably be in getting good ends and backs. Captain Beacham will himself probably play at full. For halfback there are several promising candidates, among them Pearson, of the Ithaca High School. For guards Favile and Clark, who each weigh over 200 pounds, are among the candidates.

While the team will be heavier than last year's

each weigh over 200 pounds, are among the canadities.

While the team will be heavier than last year's team, it will, however, probably be the lightest of the "big five"; but it is thought this will not be unfavorable to Cornell. Instead of employing a professional coach, the plan is being tried this year of securing old graduates to coach. The cosching at present is being done by Kelley, "52; Fennell and Captain Beacham, and the plan seems to be working well. Other alumni who will couch in the course of the season are George Dyer, "95; Edward Young, "94; William Young, "32; Charles Mason, "95; C. R. Wyckoff, "96; George Bacon, "92; Harry Sheldon, "88; Shock, "94; Joe Colnon, "36, and Charley Rogers, "96.

Sheidon, '88; Shock, '94; Joe Coinon, '8a, and Charley, Rogers, '96.

Manager Thompson has announced the following schedule of football games: Coigate, September 28, at Ithaca; Syracuse, October 3, at Ithaca; Western Reserve, October 10, at Ithaca; Tufts, October 11, at Ithaca; Harvard, October 24, at Ithaca; Princeton, October 31, at Princeton; Bucknell, November 7, at Ithaca; Williams, November 14, at Buffalo; Pennsylvania, Thankagiving Day, at Philadelphia, The Cornell Co-operative Society opened its store for the year on Saturday, Harry I. Powers, 186, has been appointed manager.

Professor Benjamin Ide Wheeler returned on Friday from Europe, During the last year he was engaged as director of the American School of

engaged as director of the American School of Classical Studies in Athens. He spent the summer in Heidelberg and Oxford. Professor George L. Burr, who is now in Holland making researches for the Venezuelan Commission, will not return until Christmas. During his ab-sence Professor Morse Stephens will continue to conduct his classes.

Hartford, Conn., Sept. 20. College opened with chapel on the evening of Thursday, September 17. Between forty and forty-five new men presented themselves. The number of science men entering this year is especially noticeable, there being ten or tifteen who thus go into the sophomore class The "push rush" which takes place annually bethe two lower classes came off on theath letic field Friday night at 7:30 p. m. The fight was for the best two out of three, and '99 finally won ofter two of the rushes had been declared ties. After the rush the four classes, formed in order of senior-

ity, marched downtown.

Football practice has been going on for a week under the captaincy of A. M. Langford, '97. About twenty-five men have reported as candidates, a large number of them arriving the Monday or Tuesday before the opening of college. Some good material is being developed by Everett Lake, the old Harvard

is being developed by Evetett Lake, the old Harvard halfback, who is staying in town, and will coach the team regularly through the season. M. H. Coggeshall, quarterback on last year's team, has been at work on the men for three or four days, and W. S. Langford, Jr., capuain of last year's team, is expected soon.

The schedule of games for this year is yet incomplete. The first game is with Yale in Hartford September 26.

A new trophy cup has been presented by J. C. Underwood, 26, which cup is to be contested for annually by the two lower classes in a fall field meet. There are no changes in the roll of the faculty this year. F. McD. Goddard, 26, is assistant in the physical haboratory, vice S. Ferguson, 26. Mr. Foster, instructor in gymnastics for several years, has resigned. The vacancy has not yet been filled. The schedule of chapel services has been changed somewhat. In former years both morning and evening chapel was required on week days with eight cuts a term allowed. For the future evening chapel will be discontinued and one cut will be granted a week with the restriction that no cut if not taken in its proper week shall be allowed to stand over until the next week. There is only one service on Sundays now.

The sophomores have elected 1, K. Baxter captain.

until the next week. There is only one service on Sundays new.
The sophomores have elected I. K. Baxter captain of the track team for this year.
A temporary building is being erected at the south end of the college main building to take the place of the old gymnasium. It will contain one or two recitation rooms and space for a reading room.

COLGATE.

Hamilton, N. Y., Sept. 20.—Colgate University opened September 10 with a freshman class of forty-

hve; about twenty more are expected. Dr. Andrews returns from a year's leave of absence in Europe to take up work again in the department of Greek. Dr. Nichols, who has spent the last two years in Berlin, also returns to Colgate this year.

Colgate Academy opened on the same day as the college, with eighty-five new men. The new principal, Professor Shepardson, formerly of Worcester Academy, has been in town for some time superintending the improvements in the academy building

Captain Ford had candidates for the football team on the field for the first time September 16. Most of the old players are back, and there seems to be plenty of good material in the entering class. A coach is needed very much. The material at Colgate this year under proper coaching would make one of the strongest teams the university has ever had. The athletic association is in a deplorable condition, being left in debt file by the baseball management. A coach for the team seems out of the question. Three hundred deliars must be raised at once or the manager will be obliged to cancel the dates already arranged. The schedule is as follows: September 26. Cornell, at Ithaca, October 10, Williams, at Williamstown, October 11, Albany Medical College, at Hamilton, October 12, Syracuse, at Syracuse. October 31, R. P. I., at Troy, November 2, St. Stephen's, at Annandale, November 5, Hobart, at Auburn, November 7, S. A. A., at Syracuse, November 14, Syracuse, at Hamilton, November 21, open; Thanksgiving Day, Elmira Athletic Club, at Elmira. on the field for the first time September 16. Most

MOUNT HOLYOKE.

Mount Holyoke, South Hadley, Mass., Sept. 20.-The autumn semester at Mount Holyoke began September 17 with the largest number of students

ever registered President Mead has returned much refreshed from her summer in the TyroL There are few

changes in the faculty; one new chair has been added—civics and constitutional history, Miss Annah M. Soule, of Michigan University, is at the head of it. Miss Alice Hamilin, of Cornell, is elected to the chair of philosophy in place of Miss Moore, who is spending two years in study.

The Italian department is in charge of Miss Merrick, a graduate of Smith College, who has spent much time in foreign study. Miss Elizabeth Abbe, Wellesiey, '88, takes the place of Miss Slater (who was married in vacation) as professor of Greek.

WELLESLEY.

Wellesley, Mass., Sept. 20.-College exercises were opened on Thursday morning with the 8:30 chapel rvice, which was conducted by Dean Stratton The entering class of freshmen numbers about 190, though applicants for advanced standing from other colleges, together with former students returning, will somewhat increase the number of inoming students. A few of the formally matriculated will delay returning until registration closes, early Tuesday morning, but the majority of the members of the college make a point of being on hand for "Flower Sunday," the first Sabbath after the opening of the year. The Rev. Mr. Scoville, of Northfield, conducted the service this morning and preached, as is the invariable custom, from the text "God is Love."

Classroom appointments will begin on Tuesday morning at 9 o'clock. Entrance examinations and examinations to remove conditions were held from Wednesday morning until Saturday afternoon. clusive. A committee of the Christian Association will hold a reception for all new members of the college on Monday evening in College Hall, this being another annual custom which helps to acquaint newcomers with the college life.

France, where she has passed the summer. Dean tratton, who has spent two months in California resumed her post on the 11th inst. Professor Katharine Coman, of the history department, returned Wednesday from a year's absence in Europe. Miss Margarethe Miller, associate professor of German, and Miss Margaret E. Maltby, acting professor of physics for the coming year, have returned recently from two years of study abroad. Miss Addle appointment, will enter upon her duties this week

Among the new members of the faculty are Miss Mary S. Locke, instructor in history; Mrs. Alice D. Porter, English literature; Miss Alice Walton, ancient art; Miss Malvina M. Bennett, elocution;

cient art; Miss Malvina M. Bennett, elocution; Miss Jean Evans, botany; John Goddard Hart, English; Miss Mary Howen, English literature; Miss Agnes M. Claypole, zoology; Miss Adelaide I. Locke, the Bible, and Miss Alice Vinton Walte, English.

George Gould, of Andover, Mass., has been appointed cashler of the college, in place of Mrs. Catherine A. Bansom, who resigned last year after a long term of faithful and efficient service.

Several noteworthy changes, made during the summer vacation, will add much to the convenience of the college life. The offices of the president and secretaries in College Hall have been removed from the east corridor to the south centre of the building, the offices of dean and of treasurer being near at hand. A small dining-room has been set apart for the use of members of the faculty, and new parlors have been fitted up to meet the needs of the students. A heavy, cak-framed clock, adapted to control the time service and programme beils of the college, has been placed at the left-hand first-floor centre of College Hall, the clock bearing the inscription, "In loving memory of Helen A. Shafer, this clock is presented to Wellesley College by the class of '30." Stone Hall and the art building have also been provided with time dials by the same class.

ROCHESTER

Rochester, N. Y., Sept. 20 .- The forty-sixth year of the University of Rochester opened on Wednes-day with the registration of fifty-six freshmen. Additions have been made to this list which will bring the total membership of the class up to A larger proportion of students than usual came from outside of Rochester, and a number are from other State: than New-York.

The retirement of President David J. Hill leaves government is in charge of a committee composed H. Gilmore. Dr. Lattimore is the acting president, a place which he filled satisfactorily during the interim between the administrations of Presidents Anderson and Hill. No definite answer has yet been received from Professor Benjamin Ide Wheeler of Cornell, to whom a call to become president was extended by the trustees in June. Dr. Wheeler has been abroad a year or more, and arrived in New-York on Thursday. At the opening chapel exercises on Thursday morning Dr. E. M. Moore, sr., president of the Board of Trustees, was present and explained the necessary delay in the settlement of the presidency. He promised that the institution would be kept up to the high standard set by Dr. Anderson and Dr. Hill.

Professor Forbes will take the senior class in psychology, which has been taught by President Hill. The only other change in class work is caused by the return of Ryland Kendrick, instructor in Greek, who has spent the last two years in Germany and Greece. During that time Adelbert Hamilton, class of '32, has acted as instructor in Greek.

d of late, and hoth Professor bouge, of the blo-leal department, and Mr. Lawrence, of the de-tment of physics, have received needed aids in way of apparatus and additional room, reception was given the freshmen by the Col-Young Men's Christian Association on Thurs-

day afternoon.

Steps will at once be taken to reorganize the football elever. Captain Williams has handed in

Mr. Phinney rearranged the library in the sum-mer according to a new system. Additions have been mide, bringing the total up to 31,000 volumes.

VASSAR.

Poughkeepsle, N. Y., Sept. 20.-Vassar's thirtyfourth year began with chapel exercises Friday even-ing. Notwithstanding the hard times, the number of students will be larger than ever before. It is safe to predict a roll of at least 550. Miss Carrie C. Lawence, '82, will assist Miss McCaleb and Miss Cora-A. Start, '90, Professor Salmon, Miss McNary, grad-uate of Wellesley, will assist in the English department. Miss Rogers, recently instructor in the Ade ph!, Brooklyn, will instruct in French and Italian. Miss Laura J. Wylle, '77, has been advanced to the place of associate professor in the English depart-

menla, has recently returned to this country and will be the assistant resident physician of the college. In the department of music Miss Ida W. Hubbell has been added as a vocal teacher. Miss Hubbell is well known as a prominent church singer in New-York and as an oratorio and concert singer. Erwin C. Banck, of New York, and for several years an in-structor in London, will teach the violin.

Professor O'Grady, head of the blological department, will remain for a year in Europe, studying in the University of Würzburg.

President Taylor's new house is nearly completed.

it stands a little southwest of the main building and

It stands a little southwest of the main building and faces the campits. The former apartments of the family in the main college are now remodelled and furnish, on the third floor, a new suite of apartments and office for Mrs. Kendrick, the lady principal, and on the second floor an office for the president and Miss McCaleb, secretary.

The plans and specifications for the new dormitory and recitation hall are new in the hands of the contractors, and work will be begun within a few weeks. It is hoped that both buildings will be ready for occupation next fall.

The dormitory, to be called Raymond Hall, in honor of Vassar's first president, will be placed north and west of the Strong and will resemble the latter in general appearance and arrangement. F. R. Allen, of Boston, is the architect. The recitation hall will be a little southwest of the Strong. E. P. York and Phillip Sawyer, of New-York City, are the associate architects. When the recitation hall is completed the present classrooms in the main building will be turned into students' rooms.

The library has added 300 books during the summer, making its total number 25,000.

Hanover, N. H., Sept. 20. Dartmouth College opened Thursday, September 16, on its 128th academic year. The entering class is by far the largest in the history of the college, numbering nore than 160 men. The total enrolment in th cademic department is 450, and in all departments about 600, Professor George Dana Lord has reurned, after one year's absence in Athens, to resume work in the Greek department. Assistant Professor Louis Dow, of the French department, has received a year's leave of absence, and his poition will be filled by E. F. Langley, of the University of Toronto.

Butterfield Museum has just been completed, and

will be occupied by the departments of geology, mineralogy, zoology, botany and social science. The departments of political science and philosophy will also use part of the building until they can be accommodated elsewhere. Crosby House, the new dormitory, has apartments for forty men. The candidates for the football team have been doing faithful work during the last week, and under the efficient coaching of Captain MacCormack, the daily practice shows a marked improvement. Elight of the old players have returned, and among the promising candidates for the vacant positions are Turner. St. Sanborn and Oakes, '99, and Rodgers, Place, Ash and Putnam from the freshman class. Manager Rollins has announced the following schedule of games. October 3, Worcester Athletic Club, at Worcester, October 10, University of Pennsylvania, at Philadelphia; October 17, Yale, at Springfield, Ortober 28, Boston University, at Hanover, October 3, Bowdoin, at Hanover, November 1, Vantoer 2, Brown, at Providence; November 1, Vantoer 2, Brown, at Providence; November 14, Vantoer 3, Vantoer 2, Brown, at Providence; November 14, Vantoer 2, Brown, at Providence; November 2, Brown, at Providence; November 2, Brown, at Providence; mineralogy, zoology, botany and social science.

Amherst, at Amherst, and November 21, Williams, at Hanover.

The installation of Father Campbell, S. J., as president has brought about a revival of the customs of the good old times, when he formerly filled the same place. The juniors, who formerly lived on an equal footing with the sophomores and freshmen, can now boast of private apartments. The seniors returned on Wednesday evening and re-ceived a hearty welcome from their fellow-students. The battalion was formed on Saturday for the first time. In the ranks were to be seen ma new faces. Captain Edmunds, 1st Infantry, U. S. A., hopes with the material on hand to excel the A., hopes with the material on hand to excel the work done last year. On Thursday delegates from each class of the University course met and elected the officers for the reading and billiard rooms. On next Thursday the officers for baseball and athletic associations will be elected for the year. The outlook for baseball this year is bright, and a long schedule of games with all the leading college teams of the country is expected. Captain Reilly, of last year'n team, has returned and expresses great confidence in the success of the new team.

PRINCETON'S NEW FOOTBALL TEAM.

NO LINE UP YET-AN EXCELLENT PROSPECT FOR A STRONG ELEVEN-PROMINENT PLAY-ERS ANXIOUS TO REGIN.

Princeton, Sept. 20 (Special).-The football season opened this week at Princeton. In response to Man-ager Andrus's call for candidates for preliminary practice, forty aspirants for the eleven reported at the University Field. The entire week has been given over to light work and no line up has yet been tried. The men who were asked to report for this preliminary practice are nearly all players of experience, th general call for candidates being reserved till after college opens. The ready response to this preliminary call, however, promises well for the prospects of the team. Nearly all the old players are back and among the new candidates are several stocky men who are sure to win laurels on the gridiron. Among the more prominent players in the preliminary squad are Suter, '99; Rosengarten, '97; Kelly, '98; Lloyd, '98; Tyler, '97; Beam, '97; A. Poe, 1980; Crowdis, '99; Holt, 1900; Brokaw, '97; Wheeler, 1900; N. Poe. '97; Edwards, 1900; H. Lathrop, 1900; G. Lathrop, 1900; Cochran, '98; Thompson, '97; Reiter. '98; Hayward, '98; Baird, '99; Pilling, '98; Swartz, '98; Church, '97; Cover, 1909; Reed, 1900; Rand, 1900; Palmer, '99; Kafer, 1900; Booth, 1900, and Ogglesby, 1900. Galley, P. G. Bannard, '99, and Riggs, '97, are expected to return in a few days, but Rhodes, '97, the giant guard, will probably not return to college.

Considerable speculation is in the air concerning the first line up of the team. The veterans, of course, will have first call on their old positions till better men push them out. In one or two cases such changes may be made. There is also some talk of shifting one or two men to fill up vacancies. By the graduation of the class of '96 the team lost two valuable men—Lea and Hearn. The former's place at tackie will be exceedingly difficult to fill, but Thompson, '97, will readily take Hearn's place. For Lea's position at tackle, Tyler, '97, and Armstrong, '98, are the chief competitors as the season opens, but Rand, ex-captain of the St. John's school team, is likely to be very much in the game for this position as the season advanis also likely that both positions at guard will have to be filled. Rhodes, '97, is anxious to go into business, and is not likely to return to college Riggs may return, but is not likely to play foot hall, as his family is opposed to his continuing the

places is promising, but not plenty, Crowdis, for two years a substitute, is likely to win a place either at centre or guard. It may be found advisable to move Galley over to guard and play Crowdls at centre. Edwards, the mammouth Lawrenceville guard, promises well for the other side of the centre. He is built very much like Crowdis of the centre. He is built to the centre. He is built to the weighing at present 240 pounds. Edwards is the more active, and will probably make a much better man than Crowdis, with proper ceaching. Church, '37, will be found in his old place at tackle, and is likely to retain his position

place at tackie, and is likely to retain his position against all competition.

Captain Cochran's injuries are not severe, and he will be ready to take his place at end in a forminght. Back of the line there will be strong competition. Poe. '97: Poe. 1900: Smith, '97, and Suter, '99, are trying for quarter, and although Suter won the place last year it is anybody's for the present. Bannard, Rosengarten and Keily are back to play half-back, and there are several promising men among the fresh material. Fullback is likely to prove a big bone of contention, with Baird, '99: Wheeler, 1809; Kafer, 1900, and Ayres, '99, in the race. John Poe, '96, has arrived to assist in the coaching, and ex-Captain Lea will come soon. Trainer McMaster, speaking of the situation, said the regarded Princeton's prospects brighter than they had been in several years.

VEWS OF FOREIGN VAVIES.

The English torpedo-boat Spitfire, which is classified as a torpedo-boat destroyer, had her fullpower speed trials a few days ago, and, according to the official reports, developed wonderful speed. After performing six runs over the measured-mile in Greek.

Of the freshmen a larger number than usual are entering the scientific course. The scientific department of the college has been greatly strengthmer end of late, and both Professor Dodge, of the blo-department of the college has been greatly strengthment. and for the full three-hours' trial the mean speed was 27.46 knots. This is equal to nearly 31 miles an hour. The contract stipulated for 27 knots an hour at 4,000 horse-power, but she exceeded the

horse-power by 527.

The new first-class armored cruiser Caesar, for the British Navy, was launched a few days ago at the Portsmouth dockyard, but the method of naming her was different from that practised in this country. When an American vessel is this country. When an American vessel is launched, the person selected to perform the cere-mony waits until the vessel begins to move down-ward on the ways, and then the bottle of wine is broken over the stem to the words. "I name thee - ' In the case of the Caesar a married woman, Lady Salmon, was selected to break the bottle, etc. When all was ready, she took the bottle and, breaking it over the stem, uttered in an audible tone: "Success to the Caesar and all who sall in her." Then, with chisel and mallet, the lady went to a pedestal and severed a slip, which released the chain holding the ship on to the head of the dock and she then slid down and was soon folded in the arms of Neptune.

The Caesar is of the Majestic class, is 390 feet in

length, 75 feet beam, 57½ feet draught, and her displacement will be, when fully equipped, 15,000 displacement will be, when fully equipped, Logoo tons. Her estimated speed is 18 knots. The main armament will consist of four 12-inch breech-loading rifles twelve 6-inch and sixteen 12-pounder quick-firing guns. In addition to these, she will carry twelve 3-pounder quick-firing guns in the fighting tops of the military masts, two 12-pounder quick-firing boat and field guns, eight, 45-inch Maxim guns mounted in suitable positions, and twelty-two torpedoes, which can be fired from four submerged tubes and one above-water tube.

A new cruiser, named the Barrozo, built to the order of the Brazillan Government, was launched a few days ago at Elswick, England. She is of steel, but is sheathed under water with wood and copper. Her principal dimensions are: Length, 330 feet; breadth of beam, 43 feet 9 inches; draught, 16 feet 10 inches; displasement, 3.450 tons; horse-power, 7,000; guaranteed speed, 20 knots. She is protected throughout the whole of her length by a curved steel armored deck; this completely protects all the machinery, masazines and steering-gear; additional protection is afforded by the reserve coal-bunkers, which are carried along the vessel's side to a height of about six feet above the water-line. The vessel is fitted with twin screws, and she will carry a battery of six 6-inch, four 47-inch and ten 6-pounder quick-firing guns; four 1-pounder Nordenfelt, four Maxim and two field guns, and three torpedo-tubes.

LORD RUSSELL MAY BE PRESENT.

The statement published yesterday that the reception committee of the Association of the Bar had received word from Lord Russell of Killowen that he had changed his plans and would have to sail for England before October 3, and could not sail for England before October 3, and could not therefore be present at the opening of the association's new home, is untrue. The committee has not yet been able to fix the date of opening and the attending reception, because the administration committee has not yet been able to determine definitely when the building will be ready, although it is likely to be finished about September 25 or 30. Lord Russell will not sail until October 3, as at present announced.

MISSIONARY SOCIETIES OUT OF DEBT.

The American Board of Commissioners for Foreign Missions has just announced to the various Congregational churches throughout the country, by whose contributions it is supported, that the heavy load of debt with which it was burdened at the beginning of the fiscal year, and on account of which the salaries of its officers and missionaries were largely reduced, has been lifted and that the close of the year finds it without financial obligation. According to the report of the treasurer of the Board, there was on August 31, 1895, a debt amount-

Board, there was on August 31, 1835, a debt amounting to \$114,652 38. In the year ending August 31, 1836, there was disbursed 3627,968 58, thus making the total to be made up in order that the Board might balance its books of \$142,661 58. The entire receipts for the same period from all sources were \$143,164 59, or \$592 55 in excess of the disbursements, which sum is now in the treasury.

The Domestic and Foreign Missionary Society of the Protestant Episcopal Church also announces through its general secretary, the Rev. Dr. William S. Langford, that the debt which has hampered the workings of that organization has been wiped off the books, and that the end of the fiscal year, August 31, 1896, finds the books balanced, with a small amount to the credit of the society in the treasury. The indebtedness which has been wiped out was in the neighborhood of \$109,000.

GRAND ARMY BUGLE NOTES.

ALL SOLDIERS' HOMES NOW FULL TO OVERFLOWING.

THE MEANS OF RELIEF NEEDED-A DEFINITION OF G. A. R. PURPOSES-RECENT RE-UNIONS OF VETERANS.

Recent applications for admission to soldie have almost invariably brought the reply that they full to overflowing. Official announcemen from the various headquarters has had to be made to this effect. A large number of applicants is awaiting admission at every home in the country. This is only one of the many evidences of Demo cratte misrule which abound in the land. Under the ordinary conditions of Republican prosperity a great many old soldlers were able to find employ ment on farms, in the villages and in the cities But most of the avenues of employment have belosed in the last three or four years. The result is that many who have been living on what little the could find to do, eked out by their pensions and their meagre savings, find that they have nothing to fall back on for the winter, and the next movis to ask for admission to the soldiers' homes. The homes are full, and as the necessity for immediate relief is urgent, it is proposed that the authorities shall lose no time in providing temporary accommodations. Unless this is done, and done promptly, much suffering must come with the cold weather The State Home at Bath is overcrowded already and there should be no delay in making ready quarters for the aged, infirm and destitute veterans whom necessity compels to choose between the home

The permanent remedy for this condition of affairs A change of administration at Washington which will set the looms and mills and factories of the country in motion, give employment to of the sons and grandsons of the defenders of the Union, and open the way to investment of capital and enterprises of every description. With the restoration of confidence, which the election of Me Kinley and Hobart is sure to bring, the applications for admission to soldlers' homes will fall off, and many who are at present reluctant inmates of these to gain a livelinood in congenial ways.

The scheme of hair-brained theorists who would pay every soldier's pension in 33-cent dollars, and compel labor to accept remuneration at half-rates, while all the necessaries of life are doubled in price an never have the support of the sensible, hardheaded men who fought the battles of the Union. What they ask and all they want is a chance to take care of themselves, and this one year of President William McKinley's administration will give them.

OBJECTS OF THE ORGANIZATION.

The new National commander, Major Thaddeus A. J. Burbank quartermaster-general. For adjutantgeneral he has selected Comrade Charles E. Birrmelster, of Omaha. In defining the purposes of the Grand Army the Commander-in-Chief made this statement, which will receive commendation at the present and all times of political commotion:

present and all times of political commotion:

It has no policy. The G. A. R. is in no sense a political organization. It is simply an organization for the care of the soldier; to look after his material interests; to aid the dependent, the widow and the orphan; to renew at our annual gatherings and our post meetings the old associations; to touch clows as we did in the times of trouble, and to pledge ourselves anew at all these gatherings that we shall strive to maintain "Old Glory" where we placed her; to strive to keep America upon the pinnacle of nations, where by our bood, our sacrifices and our sufferings she stands to-day.

Past Commander A. H. Bradley of James C. Rice.

Past Commander A. H. Bradley of James C. Rice Post, No. 29, has returned to the city from his summer vacation, which he turned into a wedding visited his old friends in Johnstown, N. Y., where ties and by many comrades of the Grand Army, who were proud to welcome him. St. Patrick's Lodge, No. 4, F. and A. M., of Johnstown, possesses records going back to 1766, in a well-preserved state, which lodge has among its relics the key to the cell in the old Canandaigua jail in which William Morgan, the renegade Mason, was confined. It is a quaint and ponderous affair, and curio seekers have purloined it several times, notwithstanding the fact that it weighs more than six pounds. It is now kept securely locked in the safe, of which no one has the combination except Comrade Buchanan, past master of the lodge, and a well-known member of Mc-Martin Post, No. 259. The old jail was rebuilt a few years ago, but the cell in which Morgan was confined remains undisturbed.

OLD SOLDIERS REASSEMBLE.

The "old boys" representing the survivors of the 127th New-York Volunteers met at the town half of Jamaica, Long Island, for their annual reunion last week, celebrating at the same time versary of their departure for the war thirty-four years ago. There were about 100 of the veterans present, among them some who had never attended present, among them some who had never attended one of the reunions, and the meeting of these with their old comrades, whom they had not met for more than thirty years, was interesting, and in ome instances affecting. General Stewart L. Wood-ord addressed the boys, and several others spoke. All sat down to an excellent dinner. Among the old-imers present was the Rev. Samuel B. Willis, the id chaplain of the regiment, who is now nearly included the probability of the oldest war chaptain in the United States; also, Elder Horace B. Stochell, of Jersey City, whose zeal in getting a shot of two extra in at the battle of Honey Hill led him eyond the line and nearly cost him a term at the dersonville. The old Board of Officers, Comrade H. Wessells of the Produce Exchange, secretary, as re-elected.

Anderseiline. The Produce Exchange, secretary, was re-elected.

Kearny's Ist New-Jersey Brigade Society held its diffeenth annual reunion at New-Brunswick last week Major Williamson welcomed the veterans, and the annual address was delivered by the Rev. George B. Wright, of Bridgeton. The officers elected for the ensuing year were: President, John Law-rehe, of New-Brunswick; vice-presidents, Thomas Kaite, 1st Regiment, of Elizabeth; John Dunham, 2d Regiment, of Elizabeth; John Seal, 3d Regiment, of Elizabeth John D. Cooper, 4th Regiment, of Camden, George W. Hiler, 15th Regiment, of Boonton; A. A. Messerolle, 23d Regiment, of Trenton; J. F. Terry, 46th Regiment, of Milliown, G. Froelick, battery, of New-ark; A. Bodhi, band, of Newark; treasurer, Colonel George C. Brown, of Elizabeth; corresponding secretary. S. D. Asphawail, of Newark; the plain, the Rev. Dr. W. H. Van Arsdail, of Hackensack. Trenton was fixed upon for the place of the next meeting. An invitation from Washington Park, on the Delaware, was declined.

FIGHTING THEIR BATTLES O'ER.

Parnsworth Post, No. 176, at Mount Vernon, began an interesting series of meetings on Friday night ast, which promises to develop a considerable amount of interesting details of engagements of the war and of personal reminiscences of the great con-test. After the routine of official work was fin-ished Commander W. H. Lapham, who is always an attractive speaker, started the ball rolling, and an attractive speaker, started the ball rolling, and then followed impromptu talks of experiences in the war, covering many interesting and humorous incidents, by Past Commander Perry, of Mienigan, and Comrades William Wilson, Jr., W. A. Armstrong, A. M. Tillie, Henry E. Rhoades and others.

Comrade Joseph Tucker Dunham, a respected citizen of Plainfield, N. J., diel at his home, No. 930 Park-ave, on September 14, from paratysis, followed by apoplexy. He was born at Newmarket in April, 1841, moved to Plainfield with his parents and was the first pupil in the Plainfield public schools. He learned the trade of a mechanic and was working at Westerly, R. L. when President Lincoln issued his call for 75,000 men on April 15, 1861. Comrade Dunham was the first man to enlist from the State of Rhode Island, and he served throughout the war. Afterward he effaged in the wholessie fish business in New-York. He lived in Brooklyn for awhile and returned here five years ago. He had been engaged in the manufacture of a patent combination shipping tag and envelope at No. 59 John-st. New-York, H.s wildow survives him. He was a leading member of the G. A. R., and was at one time commander of Anderson Post.

RESOLUTIONS AT ST. PAUL.

RESOLUTIONS AT ST. PAUL.

At the St. Paul encampment this month resolua capable ex-soldiers in Government appointments; irging on Congress the justice and propriety of con-

urging on Congress the justice and propriety of conferring on General Nelson A. Miles the title of lieutenant-general; indorsing the proposed National parks at Vicksburg and Profericksburg; recommending the reading of Lincoln's Gettysburg address as part of the exercises on Memorial Day; favoring the prohibition of the use of the National flag for advertising purposes; asking Congress to repair and preserve the Constellation and the sloop of war Hartford, and asking Congress to provide for a soldiers home south of the Ohio River.

The survivors of the Gth New-York Volunteers enjoyed their annual reunion on Wednesday evening last at Military Hail, No 193 Bowery. Comrade Harry Philips presided, and nearly one hundred of the veterans were present. The fifth was raised in New-York City, and, was one of the regiments that performed heavy solvice in the Department of the South. It was at Fort Fisher and other places on the seaboard and lost heavily at the disastrous baitle of Ouleste, in Florida. The comrades partook of a fine dinner and heid an old-time campfire. Among the guests was Colonel McDonald. Major Frank A. Butts, now of Washington, was expected, but was unable to attend on account of business. This was regretted, as the Major is one of the popular officers of the old regiment.

Captain John B. Hyde, of Lafayette Post, No. 149, and Adjutant-General and Chief of Staff to Grand Marshi Von Shack at the last Memorial Day parade, attended the firemen's reunion at New-Bedford, Mass. and was made the recipient of a gold-headed, ebony came from his old friends and comrades of the 6th Massachusetts Battery, which he commanded in the war. The presentation was at the headquartiers of the Columbian Engine Company, Captain Hyde made a fitting response. Among the guests were many of the leading citizens, cotably the Mayor, two ex-Mayors and every old-time freman within a radius of fifty miles.

A strange double fatality recently occurred at the National Soldiers' Home in Milwaukee, the victims

ing when both fell backward to the stone flagging and were so badly hurt that they died soon after.

A YOUNG MAN ACCUSED OF FORGERY.

HE SAYS HE IS THE SON OF A PHILADELPHIA BANKER

Italian banker in Philadelphia, and gave his name as A. S. Baratto, was arraigned in the Centre Street Police Court yesterday morning on the of No. 60 Wall-st., who charge him with defraus. ing the firm out of \$125 by means of a bogus draft On September 14 the young man, it is alleged to duced the firm to cash his draft for \$125, saying he had a power of attorney from his father, G. B. Baratto, banker, at No. 813 Carpenter-st., Phila delphia, to sign the latter's name to all drafts he shed to cash, and to collect all moneys due to father's banking business. The prisoner furth declared, it is alleged, that he was a full parts of his father, in which case he would have the rig

of his father, in which case he would have the right to sign the name.

Bolognest, Hartfield & Co., however, say that the draft came back marked "N. G." and that they reported the matter to the Central Office, and Detective Price arrested young Baratto. There is even some doubt, it is said, that the prisoner is the son of the Philadelphia banker.

The prisoner, in court yesterday, said there must be some error in the matter, and asked that the examination be adjourned until Wednesday next, in order that he could have his father or some of his friends come from Philadelphia.

The request was granted, and the prisoner was held in \$500 ball, which friends furnished.

PRACTICAL CHARITY AT A CHURCH

The Rev. D. V. Gwilym, paster of the Mardougal tical charity, in connection with his regular work, from which he expects rich results. This is the giving away of a loaf of bread to all men who apply for it. At the services vesterday morning of the old-fashioned building. They were present either on the personal invitation of Mr. Gwilym or distributed in the neighborhood, inviting destina

illy in the singing.

The subject of Mr. Gwilym's discours
Fruits of the Spirit." He spoke elo
forcibly of the attributes of a truly

Mr. Gwilym said: "I got the from seeing the crowd of s way at night to get a loaf of bakery, and from talking wit pose to keep up this we winter, but hereafter the at the evening services. I have respect for any man's feelings, and many men do not like to have others see them apply in this way for bread. I will also arrange to give each man a cup of good hot coffee." Coffice.

Bread was also distributed after the evening service yesterday. In all about two hundred leaves of bread were distributed.

STOLE A BOSTON MAN'S UMBRELLA.

George B. Dennett, forty-three years old, alias Williams, who says he is a cousin of Superintenden Dennett of the Parkhurst Society, was arraigned in Jefferson Market Court yesterday by Central Office Detective Casassa on a charge of larceny. Dennett says he lives at No. 18 First-st. He has been at rested several times before and his picture is No.

1,177 In the Rogues' Gallery. Detective Casassa told Magistrate Cornell that on Saturday afternoon he saw Dennett in the Grand Central Depot take a gold-handled umbrella from a seat while the owner was buying a ticket at the a seat while the owner was buying a trace at the category ticket office. Casassa chased Demnett and caught him, but when he returned he found that the train had left the station, carrying the complainant in He telegraphed ahead to the next station to find the name of the man who had lost the umbrella and in a short while a telegram was received at Headquarters stating that the umbrella belonged to William L. Barnard, of No. 140 Tremont-st., Boston.

ton.

Dennett pleaded guilty in Jefferson Market Court
yesterday and Magistrate Connell held him for
trial.

PLAYED AWAY HIS WIFE'S JEWELRY. Morris Schnerin, twenty-two years old, of No. 3 Fourth-ave., was arraigned in Yorkville Court yet-terday on a charge of grand larceny. The com-plainant, Mrs. Lillie Elmourne, of No. 239 East

Twenty-first-st., charged that the defendant chested her husband William out of \$300 worth of her jewelry that she had given to him as lateral for cash in a game of "stus," or Russian faro, that he and Schnerin were playing at the complainant's home on Saturday evening. When the case was called the defendant said he and Elmourne had played for many nights at the Palm House, on the Bowery in Saturday night, he

the case was called the defendant said he and Elmourne had played for many nights at the Paim House, on the Bowery on Saturday night, he said, Elmourne invited him to his rooms to play, Elmourne was short of ready cash, and he advanced him \$127.50, taking as security the jewelry—a pair of diamond earrings, diamond inger ring, diamond breastpin and an Elk badge, the latter belonging to the husband.

The defendant had a run of luck and won the money back. Elmourne declared that it was a "brace" game, and demanded the return of the jewelry. Schnerin declined to disgorge, and Folkeman James Tiver, of the East Twenty-second-st. station, was called in. The defendant said he made no attempt to leave the premises, though he could have done so and knew that an officer had been sent for.

Magistrate Flammer, on hearing this statement, said to both defendant and complainant that if they could not settle their difficulties without taking up the time of the court he would order a complaint taken charging them all with being common game blers. So the defendant's lawyer so Elmourne, Mrs. Elmourne and his client together and held a long Elmourne and his client together and held a long conference, which resulted in the closing of the case.

"BILL" STETSON PROVES AN ALIBI. "Bill" Stetson, or Miller, who is commonly known

as "Bill the Brute," was in Harlem Court again yes terday morning in the Hildebrand robbery case, and succeeded in proving an allbl, so that Magis-trate Simms discharged him He was arrested trate Simms discharged him He was arrested Thursday afternoon after having been discharged in Centre Street Court and charged by the police of the East One-hundred and-fourthest, station with being the "pal" of Jim Dalton when Henry Hildebrand was robbed of about \$2 ma September 3, Stetson looks so much like the man whom Hildebrand saw in the hallway with Dalton, and who was brand saw in the hallway with Dalton, and who was seen by others running away from the place, and the job was done so nearly in "Bill the Brate's" own style, that it looked as if the police had a clear case against him. Hildebrand and others saw him and recognized him at once.

But Stetson showed yesterday that he was in jail in New-Jersey when the robbers was done. Beter

But Stetson showed yesterday that he was in jaff in New-Jersey when the robbery was done. Defective Peter J. Christle, of Newark, was in court and told the magistrate that he arrested Stetson at the told the magistrate that he arrested Stetson at the Waverley Fair Grounds near Newark on Thesday, the day before the robbery. Bull' was attending the fair, and Christle, who knew him, was a Jersey as to what was so interesting to him at a Jersey fair. "Bill" was locked up in Newark and taken to the City Court on Wednesday, the day Hidebrand was held up. The justice was going to send the old man to the Essex County Juli for ninety day, but "Bill" pleaded that he wasn't at the fair for any evil purpose, and the judge turned him over any evil purpose, and the judge turned him over the Chief of the Newark police to be kept till fair was over. On Saturday, the 12th, when the fair closed, he was released.

THARLES HEIDELBERG'S TRIP ABROAD. Charles Heldelberg, the detective, who reached New-York on the St. Louis on Friday, after a 119 abroad in pursuit of Julius Freudenthal, who is alleged to be guilty of grand largeny, has nothing to ay at present in regard to the success of his tro There have been some unfounded reports about the case," said Mr. Heldelberg yesterday, "but none of them came from me. It would be an injusice to the banks in whose interests I acted to say anything as to the result of my trip just now. I shall be prepared to give an account of it later."

THE PETROLEUM MARKET.

Despite the accumulation of stocks above ground, the sustained export movement of perroleum keeps prices of The report for August of all the Pennssivania page ince showed a decime in both runs and supprents, at November pared with July, but an increase of not far from 20,000 barrels in net stocks. September promises to add larger to the stocks. Following is the result of pipe ine ments for four months, compiled from the figures of "De Oil City Derrick":
